#	Page	Menu	Under	Status	Link on the preview	HTML file that holds it	Live page today	Note
1	**About Us**	About Us		BUILT	`/about`	`about.html`	/about/	
2	**AC Installation**		Cooling	BUILT	`/ac-installation`	`ac-installation.html`	/air-conditioner/installation/	"Free Estimate" appears in the page title, the hero line and the closing paragraph. It is the brief's own wording, left as written. Many contractor markets restrict that phrase, so confirm it before launch.
3	**AC Maintenance**		Cooling	BUILT	`/ac-maintenance`	`ac-maintenance.html`	/air-conditioner/maintenance/	
4	**AC Repair Experts**			BUILT	`/ac-repair-experts`	`ac-repair-experts.html`	/ac-repair-experts/	Mirror of the live ad landing page, kept byte for byte. Its menu button, Book Now and BBB badge are under 44px on a phone and the review attributions are 10px. Those come from the live theme, not from this build, and cannot be reached from our stylesheet.
5	**AC Repair**		Cooling	BUILT	`/ac-repair`	`ac-repair.html`	/air-conditioner/repair/	
6	**AC Replacement Experts**			BUILT	`/ac-replacement-experts`	`ac-replacement-experts.html`	/ac-replacement-experts/	Mirror of the live ad landing page, kept byte for byte. Its menu button, Book Now and BBB badge are under 44px on a phone and the review attributions are 10px. Those come from the live theme, not from this build, and cannot be reached from our stylesheet.

18	**Blog Template (for dev to duplicate)**			**TEMPLATE**	`/blog-template`	`blog-template.html`	Not live yet	THE BLOG TEMPLATE, a different thing from the blog index. Not a page, and it must not be published. It is the file to duplicate to build post 14 onward: rename the copy blog-<url slug>.html, work down its 32 SWAP notes for what changes per post, leave the 3 KEEP notes alone, then add a card for it on the blog index. Nothing links to it.
19	**Utah Inversion HVAC Checklist**		Blog index	**BUILT, NEW**	`/blog-utah-inversion-hvac-checklist`	`blog-utah-inversion-hvac-checklist.html`	Not live yet	
20	**Water Heater Leaking From Bottom**		Blog index	**BUILT, NEW**	`/blog-water-heater-leaking-from-bottom`	`blog-water-heater-leaking-from-bottom.html`	Not live yet	
21	**What Does Water Heater Maintenance Include**		Blog index	**BUILT, NEW**	`/blog-what-does-water-heater-maintenance-include`	`blog-what-does-water-heater-maintenance-include.html`	Not live yet	
22	**Blog**		About Us	**BUILT**	`/blog`	`blog.html`	/blog/	THE BLOG INDEX. The one page that lists the articles. It carries a card for each one linking through, and no article wording of its own. All 13 articles in this package are on it. Publish a fourteenth and add its card here too. Separately: no publish dates and no author byline exist anywhere in this set. The content calendar lists all 13 as Scheduled to Post with no date, and no brief names an author. One card carries the spelling "recognise", which is the brief's own wording.
23	**Camera Inspection**		Sewer and Drains	**BUILT**	`/camera-inspection`	`camera-inspection.html`	/plumber/camera-inspection/	
24	**Coming Soon (placeholder)**			**PLACEHOLDER**	`/coming-soon`	`coming-soon.html`	Not live yet	Placeholder destination. Every nav or body link whose page is not built yet points here rather than nowhere.
25	**Contact Us**	Contact Us		**BUILT**	`/contact`	`contact.html`	/contact/	
26	**Cottonwood Heights, UT Air Conditioning**		Service Area	**BUILT**	`/cottonwood-heights-ut-air-conditioning`	`cottonwood-heights-ut-air-conditioning.html`	/cottonwood-heights-ut/air-conditioning/

41	**Furnace Installation**		Heating	BUILT	`/furnace-installation`	`furnace-installation.html`	/heating/furnace-installation/	
42	**Furnace Maintenance**		Heating	BUILT	`/furnace-maintenance`	`furnace-maintenance.html`	/heating/furnace-maintenance/	
43	**Furnace Repair Experts**			BUILT	`/furnace-repair-experts`	`furnace-repair-experts.html`	/furnace-repair-experts/	Mirror of the live ad landing page, kept byte for byte. Its menu button, Book Now and BBB badge are under 44px on a phone and the review attributions are 10px. Those come from the live theme, not from this build, and cannot be reached from our stylesheet.
44	**Furnace Repair**		Heating	BUILT	`/furnace-repair`	`furnace-repair.html`	/heating/furnace-repair/	Carrier, Lennox, Rheem and Goodman show as logos. Trane and American Standard stay as names because the only marks available are the parent company (Trane Technologies) and the plumbing fixtures business, both of which would be the wrong logo. Bryant and York had no usable file. More important: a manufacturer logo normally signals authorized dealer status, and the copy only claims that Sunny services these brands.
45	**Furnace Replacement Experts**			BUILT	`/furnace-replacement-experts`	`furnace-replacement-experts.html`	/furnace-replacement-experts/	Mirror of the live ad landing page, kept byte for byte. Its menu button, Book Now and BBB badge are under 44px on a phone and the review attributions are 10px. Those come from the live theme, not from this build, and cannot be reached from our stylesheet.
46	**Garbage Disposals**		Plumbing	BUILT	`/garbage-disposals`	`garbage-disposals.html`	/plumber/garbage-disposals/	
47	**Gas Lines**		Plumbing	BUILT	`/gas-lines`	`gas-lines.html`	/plumber/gas-lines/	
48	**Heat Pumps**		Cooling	BUILT	`/heat-pumps`	`heat-pumps.html`	/heat-pumps/	
49	**Heating**	Heating		BUILT	`/heating`	`heating.html`	/heating/	The section headed "Heating Systems and Brands We Service" lists only system types (gas furnaces, electric furnaces, heat pumps, mini-splits) and names no brand at all. Either drop "and Brands" from the heading or carry the furnace page's brand list here.

54	**Hydro Jetting**		Sewer and Drains	BUILT	`/hydro-jetting`	`hydro-jetting.html`	/plumber/hydro-jetting/	
55	**Home**	Home (logo)		BUILT	`/`	`home-page.html`	/

56	**Air Quality**	Air Quality		BUILT	/indoor-air-quality	indoor-air-quality.html	/indoor-air-quality/	
57	**Kearns, UT**		Service Area	BUILT, NEW	/kearns-ut	kearns-ut.html	Not live yet	Its brief says "50+ years of combined HVAC and plumbing experience" while every Millcreek and service page brief says "over 30 years". Both are left as each brief wrote them. The three Kearns child pages (AC, heating, plumbers) have no copy yet, so those links point at Coming Soon.
58	**Leak Detection**		Plumbing	BUILT	/leak-detection	leak-detection.html	/plumber/leak-detection/	
59	**Lehi, UT Air Conditioning**		Service Area	BUILT	/lehi-ut-air-conditioning	lehi-ut-air-conditioning.html	/lehi-ut/air-conditioning/

71	**Millcreek, UT**		Service Area	BUILT, NEW	/millcreek-ut	millcreek-ut.html	Not live yet	The Millcreek AC page has no brief yet, so that one link points at Coming Soon. Heating and Plumbers are built.
72	**Mini Splits**		Cooling	BUILT	/mini-splits	mini-splits.html	/mini-splits/	Mitsubishi Electric and Daikin show as logos; Fujitsu and LG stay as names because no usable file was found. Same dealer question as the furnace page.
73	**Offers**		About Us	BUILT	/offers	offers.html	/about/offers/

It goes to Coming Soon like the other unbuilt services.
